Summary

Software Engineering student with practical experience in Full-Stack Development using Spring Boot and the MERN stack. Proficient in building RESTful APIs and solving Data Structures and Algorithms problems. Eager to contribute to real-world software projects and gain hands-on industry experiences.

Education

Shri Guru Gobind Singhji Institute of Engineering and Technology <i>B.Tech in Information Technology (CGPA: 8.0/10)</i>	Nanded, Maharashtra <i>2023 – Present</i>
Government Polytechnic, Amravati <i>Diploma in Computer Engineering (91.89%)</i>	Amravati, Maharashtra <i>2020 – 2023</i>
Adarsh High School, Daryapur <i>SSC (91.20%)</i>	Amravati, Maharashtra <i>2019 – 2020</i>

Technical Skills

Languages/Databases: Java, Python, JavaScript, PHP, HTML/CSS, SQL, MongoDB, PostgreSQL
Frameworks/Libraries: Spring Boot, React, Nodejs, Django, Bootstrap, Tailwind, Mantine UI
Tools/Platforms: Git, GitHub, VS Code, STS, Postman, PhpMyAdmin, Saltcorn, Render, PythonAnywhere
Concepts: REST APIs, Full-Stack Dev, Database Management, DSA

Experience

Software Engineering Intern <i>Idevify Solutions Pvt. Ltd.</i>	Jul 2025 – Present <i>Remote</i>
Working on full-stack web applications using the MERN stack. Collaborating closely with the development team to improve UI, develop APIs, and structure databases for better performance.	
Industrial Trainee <i>For Better Code</i>	Jun 2022 – Jul 2022 <i>Onsite</i>
Worked on REST API-based applications, collaborated using Git and GitHub, and contributed to drafting Product Requirement Documents (PRDs) during the development lifecycle.	

Projects

ShortLink - URL Shortener <i>Tech Stack : React, Spring Boot, MongoDB</i> – Secure URL Shortener with custom aliasing, link expiry, and activation controls. – Advanced Features including click analytics, QR code generation, and user authentication. – Deployed on Render with proper CORS configuration for secure cross-origin access.	Live Demo
Job Portal Website <i>Tech Stack : React, Tailwind, Spring Boot, MongoDB</i> – Designed a full-stack job portal with user registration, job listings, and admin dashboard using React and Spring Boot. – Built RESTful APIs with role-based access, styled UI with Tailwind and Mantine, and managed job/user data. – Deployed the integrated system on Render with smooth backend-frontend communication.	Live Demo
Magazine Management System <i>Tech Stack : PHP, MySQL, Bootstrap</i> – Created a platform for article submission and review with roles for students, faculty, and coordinators. – Used PHP and MySQL to manage users, content workflows, and role-based access. – Designed a responsive and user-friendly interface with Bootstrap.	Live Demo

Certifications

- API Fundamentals Student Expert - Postman
- Hackathon Participant — Hackfusion 2024
- Problem Solving - HackerRank
- Java, SQL - HackerRank

Competitive Programming

Solved 450+ problems on **LeetCode** and regularly participate in contests. Solved 200+ problems on **GeeksforGeeks**, building a strong foundation in data structures and algorithms. Achieved 5 Star in Java on **HackerRank** with solid object-oriented programming skills and consistent problem-solving practice.
